Please keep your comments constructive and professional, abiding by the Principles of Community

- Erik is a phenomenal teaching assistant and teacher. He took on very high-level tasks in this class and executed them ably. His ability to write thoughtful, creative test questions that ask students to think deeply about the material is becoming legendary in the department. He delivered a popular guest lecture on explanations and problem solving that guided students through a technical topic at an appropriate level for this lower-division class. He was very reliable and I really appreciated his help this quarter.
